Midpeninsula Regional Open Space District

STUDY SESSION AGENDA ITEM 1

## AGENDA ITEM

Acceptance of the District's Classification and Compensation Study Report

## GENERAL MANAGER'S RECOMMENDATIONS

The General Manager recommends that the Board:

1. Accept the Classification and Compensation Study Report prepared by Koff \& Associates.
2. Direct the General Manager to:
a. Review and analyze Koff \& Associates’ Classification and Compensation Study Report and identify recommended adjustments to the recommendations;
b. Review and analyze feedback submitted by employees since the July 13, 2011 Study Session;
c. Return to the Board by December 2011 for approval and implementation of the Classification and Compensation Study, including any recommended changes to the report prepared by Koff \& Associates.

## SUMMARY

At the July $13{ }^{\text {th }}$ Board Study Session, the Board reviewed the District's proposed Classification and Compensation Study prepared by Koff \& Associates and received comments from District employees regarding the Study. This Report details the salary impacts on employees as well as the total initial cost of implementing the compensation adjustments.

## DISCUSSION

## Study Process and Recommendations

After a year-long process, the District Board of Directors (Board) reviewed the Classification and Compensation Study Report (Study) and recommendations prepared by Koff \& Associates (Consultant) at a Board Study Session on July 13, 2011 (Report R-11-67). At this Study Session, Katie Kaneko, President of Koff \& Associates, presented the Study’s methodologies, findings, and recommendations to the Board. Additionally, a large number of District employees were in attendance and many provided oral feedback and comments regarding the Study. A
chronological summary of the milestones in the process, including requests for information and opportunities for staff input, is presented in Attachment A.

Below is a summary of the key recommendations included in the report prepared by the Consultant (see Report R-11-67 for more detail):

## Classification Changes

1. Title changes are recommended for 15 classifications to accurately reflect the actual job responsibilities and duties performed by class incumbents and to be consistent with industry terminology;
2. Six positions are recommended for reclassification due to level and scope of work and/or job functions that have been added to the positions over time; and
3. Five positions are recommended to change from non-exempt (hourly) to exempt (salaried) to comply with Fair Labor Standards Act (FLSA) rules.

## Compensation Adjustments

1. The recommended salary model has 65 salary ranges, with each range comprised of ten steps that are $2.5 \%$ apart from each other (Attachment B);
2. The top salary for each range is recommended to be at the $50^{\text {th }}$ percentile of the market data for the selected comparator agencies;
3. The top step salary is proposed to increase for 24 job classifications and to decrease for 18 classifications (Attachment C);

## Employee Compensation Impacts

When the compensation plan is implemented, the Consultant recommends employees be placed in their new salary ranges at their current salary or the next higher step, to ensure that no employee's salary is reduced. Thus, of the 93 filled positions at the District (excluding seasonal employees and Board Appointees), no employee will experience a salary reduction as a result of implementation of the proposed compensation plan (Attachment D). Specifically:

- Seventy-four employees (80\%) will receive a salary increase ranging from $\$ 3$ to $\$ 470$ per month, with a median increase of $0.7 \%$ per employee.
- Currently, 56 employees ( $60 \%$ ) are at top step; in the recommended new salary range placements, 42 employees ( $45 \%$ ) will be at top step. This means 14 employees who are currently at top step will now be eligible for additional step increases under the recommended compensation plan.
- Nineteen employees (20\%) will be above the top step of their proposed new salary ranges. These employees will remain at their current salaries and be Y-rated, which means that they will remain at their current salaries until the top step of their range catches up to their current salary through cost-of-living adjustments (COLAs). These employees would not receive COLAs until the top step of their new salary range equals or exceeds their current salary.

## Employee Feedback

At the July 13, 2011 Study Session, after hearing comments from 14 employees, the Board invited staff to provide additional written feedback on the Study process, methodology, and recommendations by August 19, 2011. As of August $19^{\text {th }}$, eight employees had submitted written feedback to the Board.

On August 10, 2011, the Board received a letter from the Field Employees’ Association’s (FEA) legal representative, Goyette \& Associates, Inc., requesting that the Board postpone any discussion of the employee feedback for at least a month so that the FEA could hire an independent consultant to evaluate the Classification and Compensation Study prepared by the Consultant. District General Counsel responded with a letter to Goyette stating that the Board is not scheduled to discuss the Classification and Compensation Study until its Study Session on September 13, 2011 at 5:00 p.m. and that the FEA may submit any additional information at that time.

## FISCAL IMPACT

The fiscal impact of implementing the Study's compensation recommendations in FY2012-13 is $\$ 68,784$ in salaries and $\$ 15,001$ in CalPERS retirement costs, for a total increase of $\$ 83,785$

## PUBLIC NOTICE

Public notice was provided as required by the Brown Act. No additional notice is required.

## CEQA COMPLIANCE

No compliance is required as this action is not a project under CEQA.

## NEXT STEPS

It is recommended that the Board direct the General Manager to:

1. Review the employee feedback on the District Classification and Compensation Plan proposed by the Consultant.
2. Return to the Board in December, 2011 with recommended adjustments to the Consultant's proposed Classification and Compensation Plan.
