AGENDA ITEM

Field Enforcement Activity Report for Calendar Year 2011 and Ten-Year Field Activity Summary

GENERAL MANAGER'S RECOMMENDATION

Accept the Calendar Year 2011 Miscellaneous Enforcement Activity Summary and the Ten-Year Field Activity Summary.

SUMMARY

This report continues the transition, started in 2010, from the previous data collection and presentation method, to a system which is based on a complete electronic input Access database. The previous system used a combination of manual record keeping, Excel spreadsheets, converted into a less sophisticated Access database. Since the report covers the last ten years, it needs to be understood that the data from the previous system (first eight years) is not going to be as accurate as the data from the last two years. Therefore, violation occurrences and trends will be more accurate as we proceed with the new system data and the old system data is reduced in the coming years.

As such, the total violations on District property in calendar year (CY) 2011 increased by 5.3% over CY2010. Parking and Parking-After-Hours violations accounted for 49.6% of the total violations in the past year, with Rancho San Antonio experiencing the greatest number of parking violations of any District preserve as expected, due to the nature of its parking and use.

Total bicycle violations decreased by 12.3% over the previous year. This continues a downwards trend that started in 2007. Bicycle accidents also dropped from a high of 40 accidents in 2009 to 22 accidents in 2011.

In 2010 the number of off-road vehicle incidents was highlighted. It had jumped from 15 incidents in 2009 to 38 incidents in 2010. We believe this was due to a rash of motorcycle violations coming from a neighboring property onto El Corte de Madera Open Space Preserve. The number has decreased to 26 incidents in 2011, which we believe is the result of increased enforcement activity by District Rangers targeting the violators. These efforts will continue to be made a priority in 2012.

DISCUSSION

Since April 1995, staff has given the Board written monthly reports on emergency incidents and enforcement activities on District land. At the end of each year, the Board receives a summary of that year's data as well as a comparison to previous years. Information for this year's report was generated from the new Incidents Database, which was placed in service for data collection on January 1, 2010. In prior years the creation of this report relied mostly upon manual data collection methods, which were more prone to error and had limited data collection capabilities. Therefore data up to and including 2009, was imported from the previous system, while 2010 and 2011 data has been electronically collected and entered into the new Enforcement Data Base System. In addition, we are continuing to refine the current database to collect the desired information and improve the presentation of information and analysis from the system for the future.

Three summaries are presented for Board review in this report: the CY2011 Miscellaneous Enforcement Activity Summary (Appendix A), and the Ten-Year Field Activity Summary (Appendix B.1). Also provided is a summary of the actual violation codes, listed in order of frequency of occurrence (Appendix B.2). Note that information for prior years in Appendix B.2 is not complete due to the incomplete information gathered in the earlier data gathering process. Graphical representation of trends is shown in appendices C and D.

The Miscellaneous Enforcement Activity Summary (Appendix A) lists, in chronological order for the past year, contacts made or reports taken by staff of potentially serious, violent, or other criminal activity on or near District land. This is not a comprehensive list of incidents but reflects incidents of special interest or concern.

The Ten-Year Field Activity Summary includes violations of District Land Use Regulations, emergency responses, criminal activity, and mutual aid incidents. Only contacts that resulted in some form of written record, such as a District incident report, written warning, citation, or mutual aid assistance report have been included in these summaries. General assistance to preserve visitors, informational contacts, and verbal warnings are not included.

Trends and Issues

- Violations of District Ordinances continue to be the primary enforcement focus of District Rangers, as noted in Appendix B.2.
- After-hours parking violations were the highest occurring violations (331).

- Dog leash violations are the most common face to face violation (227 violations) followed by after-hours use (206 violations).
- Recorded dog violations increased slightly from 331 violations in 2010 to 348 violations in 2011, but the numbers for both off leash and dogs prohibited violations have been very stable over the last three years.

| | 2002 | 2003 | 2004 | 2005 | 2006 | 2007 | 2008 | 2009 | 2010 | 2011 |
|----------------------|------|------|------|------|------|------|------|------|------|------|

| 1. Dogs - prohibited | 50 | 70 | 70 | 55 | 62 | 78 | 114 | 128 | 114 | 121 |
| 2. Dogs – off leash | 132 | 167 | 194 | 128 | 205 | 231 | 179 | 216 | 217 | 227 |
| Total Dog Violations | 182 | 237 | 264 | 183 | 267 | 309 | 293 | 344 | 331 | 348 |

- Rancho San Antonio continues to be the most active preserve for parking violations with 270 parking citations in 2010. This is comparable with the 260 parking citations in 2011.
- Recorded bicycle violations decreased from a high of 368 violations in 2009 to 250 violations in 2011. Bicycle speed and night riding rose slightly, as shown on the chart below. The number of Closed Area violations tends to vary according to the weather since trails are not generally closed during dry periods.

| | 2002 | 2003 | 2004 | 2005 | 2006 | 2007 | 2008 | 2009 | 2010 | 2011 |

| Total Bicycle Violations | 293 | 338 | 424 | 311 | 310 | 322 | 293 | 368 | 285 | 250 |

- The number of bicycle accidents decreased from a high of 40 accidents in 2009, to 22 accidents in 2011, which is slightly below the 27 accidents per year average, experienced over the last ten years (see Appendix D).
- Overall the number of violations of District ordinances has remained relatively steady over the last five years (see Appendix C).

FISCAL IMPACT

No fiscal impact is anticipated from the acceptance of this information.

PUBLIC NOTICE

Public notice was provided by the Brown Act. No further notice is required.

CEQA COMPLIANCE

This proposed action is not a project under the California Environmental Quality Act (CEQA) and no environmental review is required.

NEXT STEPS

Staff will continue to actively enforce District regulations, encourage all users to act in a manner which provides for the protection of the natural resources, and allow for the safe and enjoyable use of the preserves by all visitors.

| January | | | | |
| Jan 02 <i>IR 11S012</i> | A mountain bike was found by District Rangers locked to some brush off the Water Wheel Creek Trail and possibly associated with marijuana cultivation. District staff cut the lock, and removed the bicycle from the preserve for safekeeping. No individuals were seen in the area. Preserve Monte Bello Location Water Wheel Creek Trail | 2 | | |
| Jan 15 <i>AR 11F008</i> | A woman, who was possibly suffering from dementia, or a head injury, drove her car to the end of Mora Drive. She left the car parked adjacent to the gate, entered the preserve and started down a trail. She was found semi-conscious by preserve visitors, who called for assistance. Santa Clara County Fire arrived at the Mora gate followed by a District Ranger. The ranger drove down to the patient and transported the patient to a waiting ambulance. | Jan 26 <i>IR 11S025</i> | A vehicle, which was observed in the parking lot after-hours, was found to be connected with a missing person's report out of Dublin. District Maintenance Crew stated that the vehicle has been parked since January 24, 2011. Upon searching the vehicle, diabetic testing equipment was found, creating concern for the driver. San Mateo County Sheriff Deputies were requested. The person was later located in Sausalito, unharmed. Preserve Purisima Creek Redwoods Location Northridge lot | 3 | SMCSO | 2 |
| Jan 29 <i>IR 11F022</i> | A District Ranger discovered two subjects dumping dirt and rocks over the side of the road into the preserve. A long and difficult contact ensued with the subjects. The ranger requested the assistance of additional rangers, and Santa Clara County Sheriff Deputies. After the deputies arrived, one of the rangers cited one of the subjects for a dumping of waste violation and warned him for resisting arrest. Both subjects were then released. | Feb 01 <i>IR 11F027</i> | A CalFire Captain came upon the scene of a dump site on District Property. It consisted of three 55 gallon barrels, one 30 gallon barrel, several 5 gallon buckets, several one gallon cans, unknown bags of what appeared to be concrete, and numerous tires. After notifying the District, three rangers responded to the scene. Santa Clara County Fire evaluated and determined the dump was not actively releasing hazardous material or that it was an immediate danger. District Rangers temporarily fenced off the area until a Maintenance & Construction Supervisor could meet with a Haz Mat Clean-up Contractor who removed all materials for \$1,800.00. | Apr 11 <i>IR 11S086</i> | <p>A report of a possible marijuana grow site was received by the San Mateo County Narcotics Task Force, who conducted an investigation. When the Sherriff's Office and District staff arrived at the location, which is below the first series of waterfalls on Peters Creek, several feet of plastic irrigation line crossing the undesignated trail were found.</p> <p>The lines were followed to several relatively level meadow areas where cultivation had taken place, most likely the previous year. The Narcotics Task Force estimated that approximately 1,200 plants had been harvested. The water lines were then cut into several pieces and taken out of the canyon, but several thousand feet of line remain along with refuse from the cultivation operation.</p> <p>Preserve Long Ridge Location Devils Canyon area, below the first main series of waterfalls on Peters Creek</p> | 1 | SMCSO | 1 |
| Apr 16 <i>IR 11S081</i> | <p>District staff responded to a report of a dog vs. dog attack at the preserve. An unleashed dog attacked a leashed dog on the Spring Ridge Trail. Staff made contact with the handler (not owner) of the aggressive dog (now on leash) and she stated that her dog had attacked another dog. The dog had blood on its face.</p> <p>She had agreed with the owner of the injured dog to pay any vet bills associated with the attack. She also stated that the aggressive dog was a rescue and that the owner was planning on aggression training. The owner of the injured dog stated that he was nipped while trying to separate the two dogs and his dog was probably going to lose part of the ear.
