

**Midpeninsula Regional Open Space District (MROSD)
Slender False Brome Management (SFB) Program Agreement**

Thank-you for participating in the Slender False Brome Management Program. We appreciate your efforts to help MROSD control this noxious weed and to preserve the health of the redwood forest. In order to be reimbursed for SFB control costs, please read, sign and return this program agreement before proceeding with treating the SFB on your property.

By participating in this program I agree to:

- Treat slender false brome (*Brachypodium sylvaticum*) following the control recommendations provided by MROSD.
- Treat slender false brome only within the areas designated in the Pre-treatment Survey conducted by MROSD.
- Follow all protective measures described in the Control Practice recommendations.
- Complete the control practices in a timely manner.
- Schedule a Post-treatment Survey of the property with MROSD.
- Reimbursement at the amount calculated will be made only after a Post-treatment Survey has been conducted and all protective measures have been followed.
- Accept the reimbursement payment limit.
- Schedule a follow-up visit (6 months) after treatment with MROSD in order to monitor the long-term effectiveness of the control practice.
- Control practices implemented prior to the Pre-treatment Survey are ineligible for financial reimbursement.
- Once a reimbursement check has been cashed, this agreement shall be concluded.
