

Midpeninsula Regional Open Space District Draft Wildland Fire Resiliency Program

May 2020 January 2021

Midpeninsula Regional Open Space District

Wildland Fire Resiliency Program

May 2020 January 2021

Prepared for:

Midpeninsula Regional Open Space District
330 Distel Circle
Los Altos, CA

Prepared by:

Spatial Informatics Group, LLC

TABLE OF CONTENTS

Table of Contents

1	Introduction.....	1-1
1.1	Overview of the Midpeninsula Regional Open Space District.....	1-1
1.2	Wildland Fire Resiliency Program Overview	1-2
2	Background and Environmental Setting.....	2-1
2.1	Program Area.....	2-1
2.2	Resources on Midpen Lands	2-11
2.3	Past and Present Fire and Fuel Management.....	2-19
3	Wildland Fire Resiliency Program Policies	3-1
3.1	Overview.....	3-1
3.2	Summary of Policy Review and Recommendations.....	3-1
3.3	Policy Revisions to Support the Program.....	3-3
4	Vegetation Management Plan	4-1
4.1	Introduction, Purpose and Need.....	4-1
4.2	Vegetation Management History.....	4-3
4.3	Vegetation Management Areas.....	4-10
4.4	Creation of New VMAs	4-18
4.5	Cyclical Maintenance of VMAs	4-24
4.6	Annual Planning and Reporting	4-26
4.7	Vegetation Management Methods.....	4-28
4.8	Best Management Practices Incorporated into the VMP	4-37
5	Prescribed Fire Plan	5-1
5.1	Introduction.....	5-1
5.2	Fire History and Prescribed Fire.....	5-2
5.3	Purpose and Need	5-5
5.4	Prescribed Burn Units.....	5-6
5.5	Planning Process	5-6
5.6	Prescribed Burning.....	5-8
5.7	Best Management Practices Incorporated into the Plan	5-12

TABLE OF CONTENTS

6	Wildland Fire Pre-Plan/Resource Advisor Maps	6-1
6.1	Overview and Background.....	6-1
6.2	Pre-Plans and Maps.....	6-1
6.3	Pre-Plan and Resource Advisor Map Template	6-4
6.4	Potential Best Management Practices for Firefighting During Wildland Fire	6-4
6.5	Post-Fire Rehabilitation Plan Development.....	6-6
6.6	Identification, Improvement, and Installation of Infrastructure to Improve Firefighting Capabilities of Local and State Firefighting Agencies	6-7
7	Monitoring Plan	7-1
7.1	Executive Summary of Monitoring Plan	7-1
7.2	Scales of Monitoring	7-2
7.3	Monitoring Parameters.....	7-8
7.4	Methods of Monitoring and Monitoring Protocols.....	7-15
7.5	Monitoring Prescriptions.....	7-21
7.6	Reporting and Adaptive Management.....	7-31
8	Maximum Acreages of Annual Treatment	8-1
8.1	Overview	8-1
8.2	Maximum Acreage of Annual Treatment.....	8-1
8.3	Assessing the Program.....	8-2
8.4	Updates and Modifications to the Program.....	8-3
9	Document Preparation.....	9-1
10	References	10-1

List of Tables

Table 1-1	Potential Permits or Approvals Needed for the Program	1-5
Table 2-1	Summary of Midpen Lands.....	2-3
Table 2-2	Agricultural Uses on Midpen Lands	2-11
Table 2-3	Types of Biological Resources that Occur or May Occur on Midpen Lands	2-16
Table 4-1	2014 IPMP Treatments and Annual Application for Fuels Management	4-5
Table 4-2	Summary of IPMP Vegetation Management Projects Across Midpen Land in 2018	4-6
Table 4-3	Existing Treatments on Midpen Lands Under the IPMP (Acres).....	4-7
Table 4-4	Maximum Fuelbreak Widths by Habitat Type.....	4-12
Table 4-5	Potential Areas within which New VMAs Could be Established (Acres)	4-19
Table 4-6	Priority VMAs on Midpen Lands (Acres) – Excludes Ecosystem Resiliency FRAs	4-23
Table 4-7	VMA Treatment Methods and Estimated Maximum Annual Application	4-28
Table 4-8	Typical Equipment Used for Vegetation Management Activities	4-35

TABLE OF CONTENTS

Table 4-9	Summary of Typical Timing for Each Treatment Method.....	4-37
Table 6-1	Target Calendar Year of Preparation of Pre-Plans and Maps	6-2
Table 7-1	Geographic Scales of Monitoring for Different Program Elements	7-2
Table 7-2	Temporal Consideration.....	7-8
Table 7-3	Monitoring Methods and Protocols.....	7-16
Table 7-4	Vegetation Management Plan – Fire Management Monitoring Prescriptions by Relevant Parameter	7-22
Table 7-5	Vegetation Management Plan – Ecosystem Resiliency Monitoring Prescriptions by Relevant Parameter.....	7-24
Table 7-6	Prescribed Fire Plan – Monitoring Prescriptions by Relevant Parameter	7-26
Table 7-7	Unplanned Wildland Fire Event – Monitoring Prescriptions by Relevant Parameter..	7-29
Table 8-1	Maximum Annual Treatments Areas.....	8-1
Table 9-1	Primary Authors.....	9-1

List of Figures

Figure 2-1	Midpen Lands.....	2-2
Figure 2-2	CAL FIRE Wildland Urban Interface and Responsibility Areas Within and Surrounding Midpen Lands.....	2-8
Figure 2-3	CAL FIRE Fire Hazard Severity Zones Within and Surrounding Midpen Lands	2-9
Figure 2-4	Open Space Within and Surrounding Midpen Lands.....	2-10
Figure 2-5	Conservation Grazing Within Midpen Lands	2-13
Figure 2-6	Vegetation Types Within Midpen Lands.....	2-15
Figure 2-7	Critical Habitat Within and Surrounding Midpen Lands.....	2-18
Figure 2-8	Sudden Oak Death Observations in 2016 Within and Surrounding Midpen Lands	2-22
Figure 4-1	Hours per Treatment Method from the 2018 IPMP Annual Report	4-6
Figure 4-2	Example of a Non-Shaded Fuelbreak.....	4-14
Figure 4-3	Example of a Discline	4-16
Figure 5-1	Example of Vegetation After Prescribed Burning.....	5-4
Figure 7-1	Images of the Landscape at Different Historic Time Periods.....	7-6

List of Appendices

Appendix A: Policy Report
Appendix B: Vegetation Management Maps
Appendix C: IPMP Guidance Manual
Appendix D: Burn Unit Maps (Forthcoming)
Appendix E: Pre-Fire Plans (Forthcoming)
<u>Appendix F: Current Inventory and Monitoring Efforts Across Midpen Lands</u>
Appendix F <u>G</u> : Monitoring Implementation Plan Forms and Annual Reporting Template
Appendix G <u>H</u> : Monitoring Methods and Protocols
Appendix H <u>I</u> : Glossary of Terms
Appendix I <u>J</u> : Key to Terms

Acronyms and Abbreviations

A

ATV all-terrain vehicle

B

BAAQMD Bay Area Air Quality Management District

BMPs best management practices

C

CARB California Air Resources Board
