Subject: Board Questions Re: 11/16/16 Agenda
Date: Wednesday, November 16, 2016 9:26:34 AM

Good morning all,

Please find responses below in [blue](#) to questions submitted for tonight's Board meeting. Please let me know if you have any other questions. Thank you.

Jen

Director Kishimoto

- what's the status of the sidewalk/trail to connect from Costano to beginning of trail on University Ave?

[This connection is not part of the current project scope. The community's interest in this trail connection from Purdue Ave to the trailhead at University Ave has been communicated to the City of East Palo Alto. The proposed Memorandum of Understanding between the City of East Palo Alto and the District will address improved future community access to the Bay Trail.](#)

- transit impact (p. 118) Has it been confirmed that proposed trail would have no impact on future re-opening of Dumbarton Rail as active service? If no, include in this discussion?

[The conceptual trail alignment is completely outside of the Samtrans right of way that is under consideration as part of the Dumbarton Corridor. Staff have met with Samtrans staff to discuss the project and have provided project status updates related to the IS/MND and easement approval. Samtrans has not provided any comments or concern about this project or the proposed alignment's implications to the rail service.](#)

Director Riffle

I have a question about Claim 73686. I thought the on-going maintenance of Mindego Gateway was to be paid by POST?

[The District is being reimbursed by POST for the ongoing maintenance at Mindego Gateway. We compile invoices and maintenance logs at the end of each fiscal year and send them to POST for reimbursement. The last check we received covered maintenance costs from April 2015 through June 2016 and was in the amount of \\$21,517.50.](#)
