

PURISIMA CREEK MULTIMODAL ACCESS STUDY

Many visitors experience challenges when traveling to the Purisima Creek Redwoods Preserve given the limited parking supply and lack of access by transit, biking or walking.

To address these issues, Midpen has initiated an Access Study to:

- » Improve visitor experience
- » Manage parking demand
- » Reduce congestion
- » Increase opportunities to bike and take transit to the Preserve

How do we improve access to the Preserve for everyone?

GIVE US YOUR THOUGHTS!
