## LEGISLATIVE, FUNDING & PUBLIC AFFAIRS COMMITTEE

R-17-09

January 10, 2017

### AGENDA ITEM 2

#### AGENDA ITEM

Memorial Grove Signage Plan Proposed by Save the Redwoods League Associated with an Existing Partnership at Purisima Creek Redwoods Open Space Preserve

#### GENERAL MANAGER'S RECOMMENDATION

Forward a recommendation to the full Board of Directors to approve the Memorial Grove Signage Plan at Purisima Creek Redwoods Open Space Preserve to minimize individual donor signage and install a centralized recognition signboard based on a Committee-selected design option.

#### SUMMARY

Purisima Creek Redwoods Open Space Preserve (Preserve) was greatly expanded in 1984 by a property acquisition partially funded by Save the Redwoods League (League). The League's ability to designate memorial groves within the Preserve was a condition of that purchase agreement. To continue raising donor funds and increase recognition for this program, the League is requesting authorization to install a centralized recognition signboard at the west entrance of the Preserve. Installation of this signboard will substantially reduce the number of future donor recognition signs that might have been installed at each grove on the property; rather than placing a sign at each memorial grove, as has been the practice, the recognition would instead be centralized at the new signboard. Of the 80 groves that remain to be dedicated, only eight would be allowed to include a sign at the grove site. The recommendation means that the number of additional individual donor recognition signs that could ultimately be placed at the Preserve would be reduced by 90%.

#### DISCUSSION

##### Background

In 1984, the District purchased the 1,662 acre Wilkins property (R-84-21) with a contribution from Save the Redwoods League. At the time of purchase, the Wilkins property was largely comprised of second growth redwood forest under an active Timber Harvest Plan that added substantial value to the property. The \$6,000,000 cost of the property was considered beyond the District's means, and staff worked to secure the \$2,000,000 grant from the League to purchase this vital parcel of redwood forest land. As a condition of the grant, the District Board of Directors agreed that the League would be permitted to designate Memorial Groves up to five acres in size, on both the former Wilkins property and the property already owned by the District in Whittemore Gulch (see Attachment 1, Appendix B).

The League has protected almost 200,000 acres of redwood forest in California and helped to create more than 60 redwood parks and preserves. Since 1921, the League's Grove Program has generated new funds for continued protection of redwood forests (see Attachment 2). Groves available for dedication are traditionally located on public land that has been protected with help from the League. In this Preserve, the League currently has 17 dedicated groves and 34 available groves within the lower Higgins Canyon area along the Redwood Trail and Upper Purisima Creek Trail (see Attachment 1, Appendix E). Within the Upper Skyline area near Skyline Boulevard, there are six dedicated groves and three available groves (see Attachment 1, Appendix F). Consistent with the conditions of the League's grant agreement, the League will be adding 43 groves for dedication along the Whittemore Gulch Trail on the western side of the preserve (see Attachment 1, Appendix H).

### **Proposed Centralized Recognition Signboard and Signage Plan**

Save the Redwoods League is requesting the following:

A centralized grove recognition signboard that shows all dedicated and available groves within the Preserve to be located adjacent to the two existing signboards at the Gate PC05 west Preserve entrance, near Higgins Canyon Road and Purisima Creek Road.

The centralized recognition signboard would be accompanied by the following Signage Plan to reduce the number of future individual donor recognition signs to no more than eleven:

1. Newly-designated Whittemore Gulch groves would be recognized solely through the centralized recognition signboard. Unlike the lower Higgins Canyon area and Upper Skyline area, none of the 43 memorial groves in Whittemore Gulch would be allowed to have individual signs.
2. Individual signs would be placed for the two groves within lower Higgins Canyon and one grove within upper Skyline that have already been dedicated and for which the donors have been promised a sign.
3. Within the lower Higgins Canyon area, the League would have the option to continue offering individual wooden signs in five specific existing groves with a higher donation threshold (see Attachment 1, Appendix E).
4. Within the upper Skyline area, the League would have the option to continue offering individual wooden signs in three specific existing groves with a higher donation threshold (Attachment 1, Appendix F).

### **Proposed Design Options for the Centralized Recognition Signboard**

The proposed centralized recognition signboard would allow the League to provide donor recognition and information on the Grove Program in a centralized location and minimize the number of new donor signs added throughout the Preserve.

The signboard design would match the two existing Preserve signboards at this location. If the Committee supports the centralized signboard request, the Committee is asked to then select from the following two design options for the signboard frame text to recognize the partnership between the League and the District (see Attachment 1, Appendix G):

**Option One** shows "Save the Redwoods League Partnership" on the upper frame and "Midpeninsula Regional Open Space District" on the bottom.

**Option Two** shows “Midpeninsula Regional Open Space District and Save the Redwoods League Partnership” at the top of the frame. In order to accommodate the two lines of text at the top of the frame with this option, the signboard frame design will differ slightly from the existing signboards.

## **FISCAL IMPACT**

The Memorial Grove signage request will not result in any additional fiscal impact for the District as all costs associated with design, fabrication, installation, and maintenance would be paid for by the League.

## **PUBLIC NOTICE**

Public notice was provided as required by the Brown Act.

## **CEQA COMPLIANCE**

A Categorical Exemption is anticipated under the California Environmental Quality Act pursuant to the following exemptions:

- Section 15304 – Minor Alterations to Land
- Section 15311 – Accessory Structures

## **NEXT STEPS**

Following Legislative, Funding, & Public Affairs Committee (LFPAC) consideration, the General Manager would forward LFPAC’s recommendations to the full Board of Directors for consideration and approval.

## Proposal to expand grove dedication area and adopt centralized grove recognition signs in Purisima Creek Redwoods Open Space Preserve

### Submitted by Save the Redwoods League

Contact: Jennifer Verhines, Donor Stewardship Manager  
(415) 820-5830 or [jverhines@savetheredwoods.org](mailto:jverhines@savetheredwoods.org)

### PROPOSAL

Save the Redwoods League requests to make additional Groves available for dedication along the Whittemore Gulch Trail at the west end of Purisima Creek Redwoods Open Space Preserve ("Preserve"), as well as adopt centralized grove recognition signage for all dedicated and future Groves in the Preserve.

### BACKGROUND

Since 1918, Save the Redwoods League has protected nearly 200,000 acres of redwood forests and supporting landscapes, helped create more than 60 inspiring redwood parks and reserves, and served more than 120,000 children through our education programs. Purisima Creek Redwoods Open Space Preserve was established in 1984 when Save the Redwoods League contributed \$2M towards the acquisition of the 1,662 acre Wilkins property for inclusion in the Midpeninsula Regional Open Space District parklands as a public preserve (see Appendix A). In making this significant contribution towards the property acquisition, the League retained the right to dedicate honorary Groves on Preserve land (see Appendix B, page 4). Since then, the League and Midpen have continued to partner on other projects such as "Redwoods and Climate Change" high school education programs, and the Loma Mar property purchase that expanded Midpen's Memorial Park.

### ABOUT THE GROVE PROGRAM

Save the Redwoods League has long partnered with agencies, at the national, state, and regional levels, to protect and steward redwood forests and to connect people with their peace and beauty. Since 1921, the League's Grove Program has been instrumental to our ability to raise funds to support this work.

Traditionally, areas where Groves are available for dedication are on land that was protected with the help of Save the Redwoods League, and then transferred or designated to a public agency partner for long term management. Deeds, divestment or purchase paperwork commonly include language affirming that the

League retains the right to dedicate honorary Groves on the land that the League purchased or helped to acquire, in order to raise new funds to protect additional redwood lands.

The League's Grove Program provides a means for donors to have an honorary redwood acreage dedicated to honor or memorialize a spouse, relative, friend, organization or important occasion. The program has been, and continues to be, a major source of funding for the League to acquire and restore redwood lands to ensure protection of these special places for generations of visitors to enjoy.

## HOW A GROVE IS DEDICATED

Currently, donors make significant donations to the League, and in recognition of their contribution an honorary acreage of redwood forest known as a "Grove" can be dedicated. Grove donation amounts currently range from \$35,000 to \$1 million, and are determined by the individual parcel's accessibility and attributes, such as size and number of trees. The acreage varies depending on location and donation amount, but Groves generally range from 1 to 10 acres. Some Groves are accessible by road or trail, while others are located in the deeper reaches of the forest. League-produced and updated maps illustrate the locations of dedicated and available Grove parcels.

After a Grove is named by a donor it remains an honorary designation within an unbroken forest. No real property value or additional rights are transferred to the donor. The land remains the property of the managing agency. The landscape is not marred by fences and boundaries but instead is marked by appropriate signage noting the name chosen by the donors and approved by the managing agency. Managing agency personnel cooperate with the League to install and help maintain signage that identifies the Groves. Individual grove signs have been traditionally offered in Groves accessible by road or trail, and not in Groves located in the deeper reaches of the forest (as these are not accessible).

Currently, 37 Groves are available for dedication in the Preserve along around the Purisima Creek Trail and off Skyline Boulevard (see Appendix C).

## PROPOSED CHANGES TO GROVE SIGNAGE

The style of Grove signage has varied slightly by park and year in which the Grove was dedicated. Recognition signs are an important part of the Grove Program because donors are often more motivated to make a donation when some form of recognition is available in or near the dedicated Grove.

Currently, Grove recognition in the Preserve consists of individual wooden signs made of reclaimed redwood or redwood-stained wood (see Appendix D). The sign board is approximately 1 by 3 feet (or smaller), with one or two sign posts that stand approximately 2-4 feet above ground. The grove name is engraved on the sign board and painted yellow. The aim of this sign aesthetic is to fit with the redwood surroundings. The League currently covers the cost of fabricating these grove signs. These signs have been installed in the existing "Lower Higgins" grove area around Purisima Creek and "Upper Skyline" grove area near Skyline Boulevard (see Appendix C).

Over the years, some visitors and park personnel have expressed interest in reevaluating Grove signage from environmental, maintenance, and visitor perspectives. The League shares this consideration, and with this in mind, proposes implementing centralized signage and minimizing individual signage (with the long-term goal being to depart from individual signage). We believe that taking these steps will demonstrate the shared values of Midpen and Save the Redwoods League, while also continuing to offer a Grove dedication fundraising program that is motivational to prospective donors.

### Individual Signage

We propose offering and installing a limited number of individual wooden signs in select groves within the “Lower Higgins” and “Upper Skyline” grove areas. There are 37 total groves that remain available for dedication in the “Lower Higgins” and “Upper Skyline” grove areas (see Appendices E, F), of which we propose that 8 groves remain available for individual wooden sign installation. There are 7 Groves shown on the “Lower Higgins” map, including 2 Groves that have already been dedicated but signs have yet to be installed. And there are 4 Groves shown on the “Upper Skyline” map, including 1 Grove that has already been dedicated but the sign has yet to be installed. Besides these select Groves, all other Groves would be recognized via the proposed centralized panels.

The criteria for these groves with individual signs are that they are at a “more significant” gift level (between \$75,000-\$200,000 at the League’s current 2016 gift levels), and that they are along the Purisima Creek Trail or off Skyline Blvd. Having these select groves available is important for providing opportunities to donors who are very motivated to make a gift, especially larger gifts, towards a Grove dedication where an individual sign is possible.

We will continue to fabricate these signs independently, as we have in past, and ask Midpen “Visitor Services” staff to assist with the installation of these signs within individual Groves.

### Centralized Signage

We propose the centralized grove recognition sign be designed and fabricated to match the two existing wooden kiosk Preserve signs (see Appendix G), and installed alongside these two signs just off the Purisima Creek Trail near the Preserve’s west entrance. The proposed sign style is also consistent with the Peninsula Open Space Trust partner sign at Windy Hill Preserve.

We propose the sign be labeled with “Save the Redwoods League Partnership” and “Midpeninsula Regional Open Space District” (see Appendix G). The sign display would include a map of League-affiliated grove areas, and the locations and recognition names of dedicated groves. The sign display would also provide history on the Preserve’s acquisition and background information on the partnership between Save the Redwoods League and Midpen. This provides the opportunity to better showcase the story of how the Grove Program, and the families and organizations who have supported it, have contributed to the

Preserve. We plan to fabricate the display materials on laminated, UV-resistant vinyl mounted on magnetic backing.

Save the Redwoods League will provide funding to cover the costs of fabricating and installing the new sign and updating the display materials. Fabricating the sign will cost between \$1,500-3,000 approximately (one-time cost). Fabricating the display materials and maps will cost approximately \$75 each (updated a couple times annually at most). Save the Redwoods League can also cover additional construction or permit related costs for this project.

For consistency, we will fabricate both the sign and display materials using Midpen's preferred suppliers. Since Midpen has existing relationships with the sign suppliers, Midpen and League staff agree that it is most efficient and cost effective for the League to convey needed sign orders to Midpen, and for Midpen to then place the orders with the suppliers.

In terms of updating the displays on a routine basis; Save the Redwoods League will be responsible for maintaining the content of the display. Save the Redwoods League will fund all replacements and Midpen staff will facilitate the production of the sign board maps and physically replacing materials in the sign board.

Through this signage, we hope to provide an improved interpretive and educational experience for all Preserve visitors, as well as a meaningful donor recognition opportunity. We also hope to create a lessened environmental impact and a longer-term, more sustainable approach to signage.

In the near future, Save the Redwoods League also plans to explore opportunities for digital and online recognition of the Grove program and dedications done at the Preserve. We look forward to sharing this project with Midpen as it develops.

## PROPOSED ADDITIONS TO GROVE AREAS

The League is interested in making new Groves available for dedication along the Whittemore Gulch Trail in Purisima Creek Redwoods Open Space Preserve. The League already offers dedications in the Preserve in the "Lower Higgins" grove area around Purisima Creek and "Upper Skyline" grove area near Skyline Boulevard (see Appendix C).

The proposed Grove area is located along the north and south sides of Whittemore Gulch Trail. Groves would begin after the gate at the Preserve's west entrance and extend approximately 1 mile along the trail. At this time, the League is proposing to add 43 individual Groves within this new Grove area. See proposed Grove addition map (Appendix H). We propose only offering Grove donor recognition of these Groves via the new centralized kiosk signage (instead of via individual wooden signs).

League donors have shown a strong interest in supporting redwood conservation through the dedication of Groves in the Preserve. By increasing the options and creating availability for more Grove dedications, significant funding opportunities will be created to further redwood protection, restoration, research, and educational programs.

#### GROVE PROGRAM PERMISSIONS WITH AGENCY

As established in the Grant of Restriction with Covenants (Appendix B) and other documents (Appendix A) signed by the League and Midpeninsula Regional Open Space District, the League has reserved rights to establish Grove dedication areas in the Whittemore Gulch area:

- Grant of Restriction with Covenants “3. Reservation of Use by District”: The Save-the-Redwoods League shall be permitted to designate sites, up to five acres in size, as Redwood memorial or honor groves on the Subject Property, and property adjacent to the Subject Property owned and operated by DISTRICT in Whittemore Gulch, for the purpose of raising new funds for continued protections of Redwood trees and Redwood forests.”

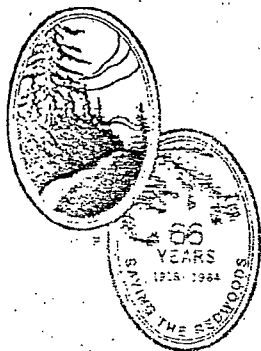

#### NEW GROVE ADDITION APPROVAL PROCESS

The League proposes the following, which is based on our Grove establishment and expansion process with CA State Parks.

1. The establishment or expansion of Groves in Purisima Creek Redwoods Open Space Preserve should be approved in writing by Midpeninsula Regional Open Space District to Save the Redwoods League.
2. The layout of the Groves should be approved by Midpeninsula Regional Open Space District.
3. Once approved, the League will be responsible for creating and updating maps, as well as arranging recognition signage as necessary.

#### CONCLUSION

Save the Redwoods League looks forward to building and improving the legacy of the Grove Program at Purisima Creek Redwoods Open Space Preserve in partnership with Midpeninsula Regional Open Space District. Thank you for reviewing this proposal and providing your feedback. If you have questions, please contact Jennifer Verhines, Donor Stewardship Manager at (415) 820-5830 or [jverhines@savetheredwoods.org](mailto:jverhines@savetheredwoods.org).

## OBJECTS

1. To rescue from destruction representative areas of our primeval forests.
2. To co-operate with the California State Park Commission, the National Park Service, and other agencies, in establishing Redwood parks and other parks and reservations.
3. To purchase Redwood groves by private subscription.
4. To foster and encourage a better and more general understanding of the value of the primeval Redwood or Sequoia and other forests of America as natural objects of extraordinary interest to present and future generations.
5. To support reforestation and conservation of our forest areas.

March 5, 1984

Mr. L. Craig Britton,  
 Land Acquisition Manager  
 Midpeninsula Regional Open Space District  
 375 Distel Circle, Suite D-1  
 Los Altos, California 94022

Dear Mr. Britton:

The Save-the-Redwoods League Directors have approved the League's participation in the purchase of the 1662 acre Wilkins property for addition to the Midpeninsula Open Space District's parklands. The Save-the-Redwoods League is willing to donate two million dollars toward the purchase of this fine Redwood parcel by April 1984 with the following understanding:

1. No further Redwoods or Douglas-fir will be logged on the property.
2. The property shall be held in trust in perpetuity for public park and open space purposes and no further commercial logging will ever take place on the property.

The League will be permitted to designate Redwood memorial groves on this property and property adjacent in Whittemore Gulch to raise new funds to help protect the Redwoods.

Please understand that no further League funds will be available toward this project. It is further understood that the League funds will be available when the property can be acquired in fee by the District with no possibility of foreclosure.

We look forward to your successful completion of negotiations for acquisition with Mr. Wilkins.

Sincerely,

John B. Dewitt

## CERTIFICATE

I, John B. Dewitt, the duly elected and acting Secretary of Save-the-Redwoods League, do hereby certify that at a meeting of the Board of Directors of said nonprofit corporation duly called and held on the 1st day of March, 1984, at which meeting a quorum was present, the following resolution was, upon motion duly made, seconded, and unanimously carried:

## RESOLUTION

BE IT RESOLVED, that the Save-the-Redwoods League pledge two million dollars (\$2,000,000.00) toward the acquisition by the Midpeninsula Regional Open Space District of the 1662 acre Wilkins property in La Purisima Canyon for inclusion in the Midpeninsula Regional Open Space District parklands; and

RESOLVED FURTHER that the support of the Save-the-Redwoods League for said acquisition in the above stated amount shall be subject to the following conditions:

1. That the said property will be held in trust in perpetuity for public park and open space purposes with no further logging of Redwood or Douglas-fir trees that are growing on the property, or that may grow thereon in the future; and
2. No funds of the Save-the-Redwoods League shall be allocated to the acquisition project unless the whole purchase is consummated as a unit, without risk of all or any portion of the property being foreclosed by any party; and
3. That the Save-the-Redwoods League may reserve the right to establish Redwood memorial groves on said property, and on the adjacent Whittemore Gulch property owned by said District, for the purpose of raising new funds to help protect the Redwoods.

RESOLVED FURTHER that the officers of the Save-the-Redwoods League are hereby authorized and instructed to allocate such funds and execute such documents as may be necessary to carry out the terms of the within resolution.

IN WITNESS WHEREOF I have hereunto set my hand this 4th day of April, 1984.

*John B. Dewitt*  
Secretary  
Save-the-Redwoods League

GRANT OF RESTRICTION WITH COVENANTS

WHEREAS, the Midpeninsula Regional Open Space District, hereinafter called "DISTRICT," has heretofore entered into that certain Agreement to Purchase Real Property dated April 18, 1984, for the purchase of that certain 1662 acre parcel of Redwood forested land hereinafter called the "Subject Property" as more particularly described in Exhibit "A" as attached hereto and by this reference incorporated herein and made a part hereof, and

WHEREAS, the Save-the-Redwoods League, a California non-profit corporation, hereinafter called "LEAGUE," was organized as a non-profit public benefit corporation to raise funds and solicit gifts of real and personal property for the purpose of acquiring Redwood forested lands in order to protect and preserve said forests for future generations, and

WHEREAS, DISTRICT and LEAGUE recognize the scenic, aesthetic and special character of the Subject Property and the magnificent Redwood forest contained thereon, and have the common purpose of conserving the natural and scenic values thereof by Conveyance of a Restriction with Covenants upon, over and across the Subject Property which shall conserve and protect the Redwood trees and the forest environment of the Subject Property and prevent the use or development of the Subject Property for any purpose or in any manner which would conflict with the maintenance and use of the Subject Property in natural, scenic and wooded condition for public park, recreation and open space purposes.

NOW, THEREFORE, for valuable consideration, receipt of which is hereby acknowledged:

DISTRICT hereby grants to LEAGUE a Restriction With Covenants upon, over and across the Subject Property as described in said Exhibit "A" in perpetuity upon the following terms and conditions:

S4041981

# 1. RESERVATION OF USE BY DISTRICT

DISTRICT reserves the right to use the Subject Property in any manner consistent with the stated purposes, terms, conditions, restrictions and covenants of this Agreement and with existing zoning and other laws, rules and regulations of the State of California and the County of San Mateo, or by other agency having jurisdiction, as such laws, rules and regulations may hereafter from time to time be amended.

DISTRICT further specifically reserves the right to do the following, such right shall in no way to be considered as a limitation of the general reservation of rights described in the preceding paragraph:

- (a) Build fences and gates of a rustic nature and erect signs as necessary to maintain security of the property;
- (b) Construct and maintain trails for hiking and horse-back riding within the Subject Property, including both internal trails and connecting trails with adjacent DISTRICT land, such latter trails to be planned and developed by DISTRICT in accordance with the terms and conditions of Section (f) herein below;
- (c) Remove diseased and/or dead plants and trees as may be required to protect public health and safety. Live trees may only be removed on an emergency basis to protect public health and safety as determined by DISTRICT, after 48 hours notice to LEAGUE;
- (d) Plant native species of plants;
- (e) Engage in scientific research and/or gathering of specimens of nature, in such a way as to not jeopardize the natural and scenic character of the Subject Property or damage or destroy the Redwood trees thereon;
- (f) Develop and use the Subject Property for public open space and public low-intensity recreational use as follows:
  - (1) Definition. All public facilities which might be developed or enhanced on the Subject Property, which would be considered by the parties hereto to be open space or low intensity recreation use, include by way of illustration, but not limitation:

84041981

- a) unpaved pedestrian hiking trails
  - b) unpaved equestrian trails and patrol roads
  - c) casual picknicking and rustic restroom facilities
  - d) kite flying and open play areas
  - e) wildlife observation areas
  - f) meditation areas
  - g) nature study areas
  - h) unpaved parking areas
  - i) photography or landscape painting areas
  - j) primitive backpack camps
- (2) Development. DISTRICT shall plan, design and develop such facilities as are reasonably necessary for public use and enjoyment of the Subject Property for open space or low intensity recreation as defined above. In the event any live trees are proposed for removal as a part of such development plans, LEAGUE shall have the right of design review and comment privileges on any and all open space and low intensity development.

84041981

With regard to open space development of the Subject Property, wherein live trees are proposed for removal, an application for design review and comment shall be made by DISTRICT to LEAGUE.

The application shall include a site plan showing the location of all proposed trails, planted or landscaped areas, proposed grading or other development or improvements, and indicating the proposed uses or activities on the property, and specifically showing the location, height and diameter of any Redwood or other tree proposed for removal as a part of such development plan.

Within thirty days from the filing of an application with LEAGUE, LEAGUE shall review the site plan and drawings, and shall make its recommendations and comments based upon the following objectives:

- a) to ensure adherence to the terms, conditions and purposes of this Agreement;
- b) to satisfy themselves that every effort has been made by DISTRICT to avoid as much as possible the removal of Redwood and other trees.

The design review provided for herein is advisory only and DISTRICT shall consider, but shall be free to accept, reject or modify the recommendations of LEAGUE.

## 2. LIMITATIONS ON USE BY DISTRICT

DISTRICT covenants and agrees for itself and its successors and assigns except where contrary to the above described rights specifically retained, DISTRICT shall strictly adhere to the following:

- (a) That the Subject Property shall forever be used for public park, recreation and open space purposes and shall be dedicated to such purposes by DISTRICT in accordance with Section 5540 of the Public Resources Code of the State of California.
- (b) That no commercial logging shall ever take place on the Subject Property.
- (c) That, except as provided in Section 1 hereinabove, no Redwood or Douglas fir trees growing now or in the future on said Subject Property shall be cut, logged, uprooted or removed from the property without the prior written consent of the Save-the-Redwoods League, a California non-profit corporation, or its successors or designees.
- (d) That, no disturbance of other plant species, nor of animal population or habitat, shall occur on the Subject Property, except as may be necessary for maintenance and use of the Subject Property as a public park and open space preserve as provided in Section 1 above, or to abate disease and/or eliminate an imminent hazard to the public.

84041981

## 3. USE BY LEAGUE

The Save-the-Redwoods League shall be permitted to designate sites, up to five acres in size, as Redwood memorial or honor groves on the Subject Property, and property adjacent to the Subject Property owned and operated by DISTRICT in Whittemore Gulch, for the purpose of raising new funds for continued protection of Redwood trees and Redwood forests.

## 4. ENFORCEMENT

DISTRICT grants to LEAGUE, the right, but not the obligation, to enter upon the Subject Property for the purpose of monitoring and enforcing any term, condition, restriction or covenant of this Agreement or to prevent or prohibit any activity which is contrary to the stated purposes, terms, conditions, restrictions or covenants of this Agreement which will or may destroy the natural and scenic characteristics of the Subject Property.

The stated purposes, terms, conditions, restrictions and covenants set forth herein and each and all of them may be specifically enforced or enjoined by proceedings in the Superior Court of the State of California.

5. MUTUAL INDEMNITY

Each party shall indemnify and hold harmless the other from any and all claims arising out of activities conducted by or under the auspices of the indemnifying party.

6. CONDEMNATION

In the event the Subject Property or any portion thereof is sought to be condemned for another public use, this Agreement and each and every term, condition, restriction and covenant contained herein shall terminate as of the time of the filing of the complaint in condemnation as to that portion of the Subject Property sought to be taken for another public use only, but shall remain in effect relative to all other portions of the Subject Property. The DISTRICT shall be entitled to such compensation for the taking as it would have been entitled had the Subject Property not been burdened by this Agreement; provided, however, that each and every term, condition, restriction and covenant of this Agreement shall be observed by DISTRICT, its successors or assigns, during the pendency of such action and provided further that in the event such action is abandoned prior to the recordation of a final Judgement in condemnation relative to the Subject Property, or some portion thereof is not actually acquired for such other public use, the Subject Property shall, at the time of such abandonment, or at the time it is determined that the Subject Property shall not be taken for such other public use, once again be subject to this Agreement and to each and every stated purpose, term, condition, restriction and covenant of this Agreement. Provided, however, that if the Subject Property or any portion thereof is sought to be acquired, appropriated, or condemned for a use incompatible with this Agreement, by any other public or quasi-public entity, the presumptions contained in Section 1240.680 of the Code of Civil Procedure and Section 5542.5 of the Public Resources Code shall be asserted by DISTRICT to protect its and the LEAGUE'S interest in the Subject Property, and preserve the open space and recreation character thereof.

7. ENFORCEABLE RESTRICTION

This Agreement and each and every term, condition, restriction and covenant contained herein is intended (a) for the benefit of the LEAGUE, its successors or assigns; and (b) for the benefit of the residents of the Midpeninsula area in which this property is located; and constitutes an enforceable restriction. This covenant is expressly intended by

84041981

DISTRICT and LEAGUE to run with the land described in said Exhibit "A", to constitute an equitable servitude therein, and shall bind each and every successive owner of said land, or of any interest therein, and shall be enforceable by the LEAGUE, its successors and assigns.

THE MIDPENINSULA REGIONAL OPEN  
SPACE DISTRICT

Leave a Living Legacy

# Honor a Loved One by Dedicating a Redwood Tree or Grove

Walk through a redwood grove — made up of the tallest and some of the largest, oldest beings on Earth — and you can't help but experience peace and awe. Many feel that there is no more fitting way to honor and memorialize those they love and respect than with the gift that protects these magnificent redwoods for future generations.

Dedicating a redwood tree or grove through a gift to Save the Redwoods League ensures that the forest's grandeur will continue to inspire future generations. Your support through this special program is instrumental in enabling the League to permanently protect and restore redwood forests and invest in building the next generation of redwoods caretakers.

Since 1921, Save the Redwoods has dedicated more than 300 honor and memorial trees and 1,000 honor and memorial groves in California Redwoods State Parks, reserves and Redwood National Park. You can mark important occasions — such as births, weddings, anniversaries or deaths — with these unique, timeless and tangible gifts.

## Dedicate

### Dedicating a Tree

With a gift of \$2,500 to \$25,000, you may personally select, dedicate and name an individual redwood tree in one of these redwoods parks:

- Butano State Park
- Humboldt Redwoods State Park
- Pfeiffer Big Sur State Park  
(available in the future)
- Wilder Ranch State Park

After the tree is dedicated, we will send you a certificate and an updated map including the name you chose for the tree and its location. The gift amount is based on the location and diameter of the tree.

### Dedicating a Grove

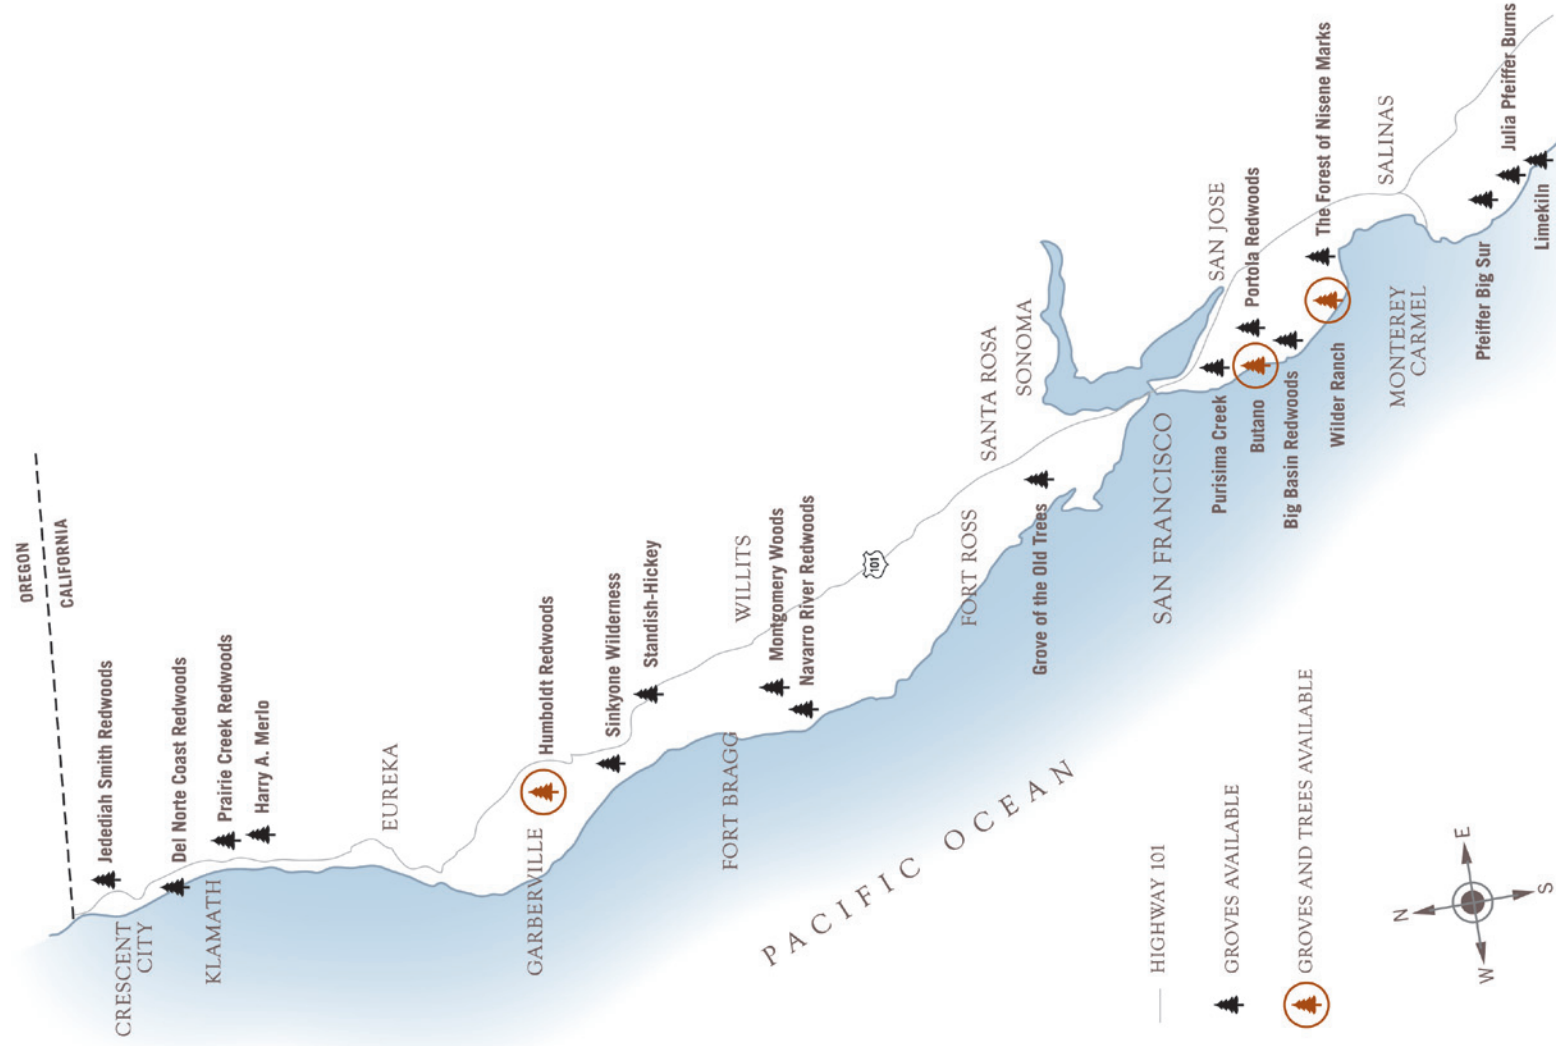

Groves are available in 19 redwoods parks. Some groves can be visited by trail or road, while others are located in the deeper and wilder reaches of the forest. Personalized maps illustrate the location of the available groves, and League staff members may be able to accompany you on a visit. Those unable to visit the redwoods may ask the League to designate a grove for them. Donations vary based on the size and age of the trees, density of forest cover, acreage, accessibility and location.

Grove gifts, which begin at \$35,000, may be made in a lump sum, over a period of three years, or in your will or other form of planned gift. In many parks, a sign or plaque bearing the name of the honoree may be placed in the grove.

For more information, visit [SaveTheRedwoods.org/dedicate](https://www.savetheredwoods.org/dedicate), call (888) 836-0005, or email [dedicate@SaveTheRedwoods.org](mailto:dedicate@SaveTheRedwoods.org).

*You can dedicate a grove like the one pictured here, which is in Butano State Park.*

## A Choice of Locations

Magnificent redwood groves are available for dedication all along the north coast of California, from Big Sur to the Oregon border. Some have small creeks winding quietly through the trees. Others have breathtaking views of the Pacific. Many are easily accessible by trail, and others are in the far reaches of the parks.

Many of the well-known Redwoods State Parks (SP), State Natural Reserves (SNR) and State Recreation Areas (SRA) offer groves for dedication. Your grove may be established in one of the following sites:

- |                               |                             |
|-------------------------------|-----------------------------|
| • Big Basin Redwoods SP       | • Montgomery Woods SNR      |
| • Butano SP                   | • Navarro River Redwoods SP |
| • Del Norte Coast Redwoods SP | • Pfeiffer Big Sur SP       |
| • Forest of Nisene Marks SP   | • Portola Redwoods SP       |
| • Grove of the Old Trees      | • Prairie Creek Redwoods SP |
| • Harry A. Merlo SRA          | • Purisima Creek Redwoods   |
| • Humboldt Redwoods SP        | • Sinkyone Wilderness SP    |
| • Jedediah Smith Redwoods SP  | • Standish-Hickey SRA       |
| • Julia Pfeiffer Burns SP     | • Wilder Ranch SP           |
| • Limekiln SP                 |                             |

## Reflect

## A Longtime Partnership for Conservation

Redwood tree and grove dedications, and the significant gifts to Save the Redwoods League that support them, have played an important role in creating, expanding and caring for California's 49 Redwoods State Parks. In fact, the League's protection of the redwoods and our early leaders helped create the California state parks system that millions of visitors enjoy today.

The first grove was dedicated in 1921 to honor Colonel Raynal Bolling, the

first high-ranking American officer to fall in combat during World War I. This dedication established Humboldt Redwoods State Park, now home to the largest remaining old-growth redwood forest in the world.

Today, dedications continue to fund the League's work to support magnificent redwood forests statewide, including those in California Redwoods State Parks. We continue to build on our history of partnership to protect these special places for generations of visitors to enjoy.

As you walk in redwoods parks, you may see markers or signs that honor individuals, families and organizations. Each dedication has a unique story. Regardless of the reason for dedicating a tree or grove, those who have made dedications have played an important role in protecting redwood forests and contributing to this conservation partnership.

*The first grove was dedicated in 1921, establishing Humboldt Redwoods State Park.*

## Let's Walk into the Woods Together

### About Save the Redwoods League

Since 1918, Save the Redwoods League has been protecting and restoring redwood forests and connecting people with their peace and beauty so these wonders of the natural world flourish. Our generous supporters have enabled us to

- **protect** nearly 200,000 acres in more than 66 parks and reserves
- **restore** more than 4,000 acres of redwood forestland
- **introduce** more than 69,000 children to the redwoods since 1999, inspiring new forest champions
- **lead** scientific forest research that results in discoveries to inform our conservation investments

The League is the only organization with the comprehensive approach needed to ensure forests that take thousands of years to grow will be here for thousands more. We know that our work is making a difference in saving some of the most magical places on the planet.

We cannot do it alone.

To learn more about Save the Redwoods League, please call (888) 836-0005, or visit [SaveTheRedwoods.org](https://www.savetheredwoods.org).

## WALK AMONG GIANTS<sup>SM</sup>

To use our resources responsibly, *Save the Redwoods League* publications are printed with soy-based inks on paper that is 100% recycled, 100% postconsumer content, processed chlorine-free and certified by the Forest Stewardship Council.

## Sign Placement Guidelines for Individual Grove Recognition Signs

### *Purisima Creek Redwoods Open Space Preserve*

Partnership between Midpeninsula Regional Open Space District (Midpen) and Save the Redwoods League (League)

*Midpen and the League have developed a signage plan where groves will be recognized on a centralized signboard. As determined between Midpen and the League, a limited number of groves remain eligible to be individually signed. When individual signs are installed, the following guidelines shall be considered for appropriate sign placement. These guidelines provide the League with an official document to inform donors of the permissible placement of individual grove recognition signs and assist Midpen Rangers when working with the League on locating new donor signs in the Preserve.*

### **Environmental and Resource Considerations**

- Avoid root damage by placing sign away from the base of mature redwoods
- Locate outside of the tree's dripline
- When near creek corridors, locate sign outside of riparian vegetation, above high water line, and at least five feet from erosion-prone embankments
- Avoid steep slopes prone to erosion
- Avoid known cultural and historical resource sites

### **Location & Visibility**

- Sign should be visible from the trail while still blending harmoniously into the natural environment
- Place sign at least five to ten feet back from the trail's edge
- Place signs a minimum of 200 feet apart to minimize aesthetic impacts of multiple signs

*Individual sign aesthetics should match the following specifications:*

### **Sign Specs**

- Individual grove signs may not be larger than 30 inches wide and 9 inches tall
- Follow the sign aesthetic of existing recognition signs
- Signs shall be composed of reclaimed redwood or redwood-stained wood with the grove name engraved on the sign and painted yellow; if using a stain, the stain shall be "flat"; no gloss is allowed.
- Install signs on a single four-by-four post
