

## Sunrise and Sunset Definition

for

## Midpeninsula Regional Open Space District

In addition to the Merriam-Webster's dictionary definitions\* of sunrise and sunset, the Midpeninsula Regional Open Space District (Midpen) uses the <u>US Naval Observatory (USNO)</u> to determine sunrise and sunset times. The USNO, founded in 1830, is recognized as the world's foremost authority on spatial and temporal reference frames. It provides a wide range of astronomical data and products, serves as the official source of time for the U.S. Department of Defense, and a standard of time for the entire U.S. It establishes official sunrise and sunset times based on location (latitude and longitude). Midpen rangers are provided with a list of sunrise and sunset times from USNO for each calendar year to enforce after hour ordinances.

The official sunrise and sunset times for Midpen are determined by times provided by the USNO for the latitude and longitude of Midpen's headquarters office, located at 5050 El Camino Real, Los Altos, CA 94022. To compensate for the distance to the preserves from the headquarters office, rangers account for the <2-minute differential based on preserve location.\*\* Additionally, rangers typically wait at least 15 minutes after closure to issue any citations.

- \* Sunset: the time when the upper limb of the sun disappears below the horizon as a result of the diurnal rotation of the earth, <a href="https://www.merriam-webster.com/dictionary/sunset">https://www.merriam-webster.com/dictionary/sunset</a>
  Sunrise: the time when the upper limb of the sun appears above the horizon as a result of the diurnal rotation of the earth, <a href="https://www.merriam-webster.com/dictionary/sunrise">https://www.merriam-webster.com/dictionary/sunrise</a>
- \*\* The difference between sunrise/sunsets based on location is approximately 1 minute per 17 miles. Midpen's geographical radius extends no more than 25 miles from the Los Altos headquarters office, so the differential within Midpen's preserves would be no more than 2 minutes for any location.

MROSD Rise and Set for the Sun for 2025
